SKILLS

LANGUAGES

- Python (Intermediate)

FRONTEND

- HTML • CSS • JavaScript

TOOLS

- GitHub • Visual Studio Code
- Python IDLE

INTERESTS

TECHNICAL

- Full Stack • AI/ML • UI/UX

NON-TECHNICAL

- Communication • Creativity

ACHIEVEMENTS

- Secured 2nd place in **debugging** at an intercollegiate symposium.

EXPERIENCE

Front-End Developer Intern

KARTHIKESH ROBOTICS PRIVATE LIMITED | ONLINE

September 2024 – October 2024

- Created responsive clones of the **KKR and Robu.in** websites using **HTML, CSS, and JavaScript**, focusing on design and functionality.
- Designed an **E-commerce** website in **Figma**, prioritizing user-friendly layouts and engaging visuals.

Python Programming Intern

OASIS INFOBYTE | ONLINE

April 2024 – October 2024

- Developed Python apps like a **BMI calculator** and **Random password generator** to enhance programming skills.
- Created a **weather app** using the **OpenWeatherMap API** for real-time weather information.

PROJECTS

KKR Website Clone

September 2024

- Built a responsive clone of the KKR website using **HTML, CSS, and JavaScript**, optimizing front-end performance and enhancing user experience.

Weather App

April 2024

- Built a weather application using **Python** and the **OpenWeatherMap API** to provide real-time weather information, with an intuitive interface for user-friendly navigation and data display.

CERTIFICATIONS

- Advanced Diploma Course in Computer Programming – **CADD CAE COMPUTERS – 4 months.**
- C Programming Course – **INFOSYS SPRINGBOARD.**
- Python Fundamentals for Beginners – **GREAT LEARNING.**
